

ACOULINE WALL PANEL - V GROOVE HORIZON

SKU: AP-MSWPVGHORIZ

Bring subtle texture and acoustic performance to interior spaces with Acouline Wall Panels in the V Groove Horizontal pattern. Featuring clean horizontal groove detailing, this minimalist design creates a sleek architectural finish that complements contemporary workplace environments.

Designed to absorb sound and reduce echo, Acouline Wall Panels help improve speech clarity and create quieter, more comfortable spaces across offices, meeting rooms, reception areas, and collaborative settings. The simple horizontal line pattern adds depth and visual structure without overwhelming the surrounding interior design.

Combining refined aesthetics with effective acoustic functionality, Acouline Wall Panels in the V Groove Horizontal pattern offer a modern solution for enhancing both workplace comfort and visual appeal.
