

CMS CONDUIT INTERCONNECTING LEADS

Interconnecting lead wrapped in flex plastic conduit with heat shrunk boots. Connect wall and ceiling starters with workstations or connect power between workstations.

Standard interconnecting cables are manufactured from 3 core 2.5mm² flexible cable. They are rated at 20A and are terminated with male and female AS/NZ61535.1 compliant connectors. Where mechanical and EMC segregation from communications cabling is required within furniture and umbilicals, plastic and steel conduit casing with heat shrunk boots are also available. Leads are Halogen Free.

2 year warranty.
