CMS INTERCONNECTING LEADS

Interconnecting leads connect wall and ceiling starters with workstations or connect power between workstations.

Standard interconnecting cables are manufactured from 3 core 2.5mm2 flexible cable. They are rated at 20A and are terminated with male and female AS/NZ61535.1 compliant connectors. Where mechanical and EMC segregation from communications cabling is required within furniture and umbilicals, plastic and steel conduit casing with heatshrunk boots are also available. Leads are Halogen Free.

2 year warranty.
