

ERGORA HIGH BACK POSTURE CHAIR

SKU: ERGOHIBMS

Ergora represents the harmony between structure and comfort - a chair thoughtfully engineered to support how the body moves, works, and rests. Featuring a high back with integrated headrest, it combines ergonomic science with refined design to deliver intelligent support without feeling clinical or mechanical.

The Dual-Zone Back Support contours naturally to the spine, providing targeted lumbar and thoracic support to encourage healthier posture and reduce back strain. An Adaptive Recline Mechanism promotes synchronised movement, maintaining spinal alignment as you shift positions throughout the day. The Dynamic Seat Angle encourages an open hip posture, enhancing comfort during extended work sessions.
