

## **FLEXI STACKING CHAIR WITH BACKREST**

**SKU:** FLEXILRGMS

Versatile, vibrant, and built for flexibility, the Flexi Stacker Chair is a practical seating solution that adapts to a wide range of learning, community, and breakout spaces. Part of the Flexi Stacker Range, this chair offers the freedom to mix and match backrest and seat colours, allowing you to create customised combinations that suit your space and brand.

Featuring a durable, lightweight design, the Flexi Stacker is easy to move, stack, and store, making it ideal for classrooms, training rooms, events, and multipurpose areas. The cleverly designed frame also allows the chair to be used without the backrest, transforming it into a junior stacking chair for younger users or specialised applications.

Manufactured with UV treatment, the Flexi Stacker Chair is suitable for outdoor use, providing added durability against sun exposure and making it a reliable option for both indoor and outdoor environments.

Backed by a 5-year warranty (1-year warranty on UV treatment), the Flexi Stacker Chair delivers adaptable, colourful, and practical seating for dynamic spaces.
