MONARCH CONTROLLER CHAIR

SKU: MONARCH1 GBL

Monarch represents the pinnacle of executive endurance seating — engineered for environments where performance never stops. Built for continuous 24/7 operation, it combines superior ergonomic engineering with a commanding, refined design suited to control rooms, command centres, and executive offices.

Constructed with heavy-duty 24/7-rated components and supporting users up to 185kg, Monarch delivers unwavering strength and reliability through every shift. Contoured lumbar and thoracic support promote correct posture and sustained comfort, while premium high-density foam cushioning ensures exceptional seating comfort over extended periods.

An executive headrest and upholstered armrests enhance ergonomic support, while tilt-lock and gas-lift mechanisms are tested for continuous use to provide precise control and adjustability. The heavy-duty polished aluminium base with twin-wheel castors ensures stability, durability, and smooth mobility.

Strong, authoritative, and uncompromising in comfort, the Monarch 24/7 Controller Chair is built for those who lead without pause.
