

VELTO 2 SEATER ACOUSTIC LOUNGE - CUSTOM COLLECTION

SKU: VL2 MISC

As workplaces become more open and dynamic, dedicated spaces for focus are more important than ever. The Velto High Back Lounge is a refined acoustic solution that restores a sense of privacy, creating a functional sanctuary within busy environments. Its high back and enveloping sides help reduce ambient noise, forming a secluded setting ideal for individual work or close collaboration.

Available in one, two, or three-seater variants, the Velto provides significant acoustic coverage without the need for permanent walls. You can even customise your Velto’s colours to suit your brand by choosing from our premium OTE Lena or Sunday fabric ranges. To finish the look, the sleek architectural base is available in a durable Black or White powder-coat, backed by a 5-year warranty, and crafted with the quality required for high-traffic environments.

The Velto Acoustic Lounge is part of the Rapidline Custom Collection. Please note this lounge is an order-in product only and requires an approx 8 week lead time.
