# 2023 New Products

**Welcome to the 2023 New Product Guide featuring our latest collection of workstations, storage solutions, seating and power rails.**

We are excited to launch some of our most innovative workstations yet. The brand new HALO+ introduces a designer 70mm diameter round leg, while boasting all the same popular features as the Boost+ workstation. Boost Static and Boost Light are both also joining the range as affordable and fixed height alternatives to the Boost+.

New steel storage solutions, heavy-duty operator chairs and desk power rails have also been added to complement these workstations, providing quality solutions for office spaces of any size.
